

Sponsorship program Newsletter

Welcome to another Response Network Newsletter! The children and staff are very excited to pass on all our news again this year. Our deepest thanks to all of you for your fantastic support towards the sponsorship program and to all our new sponsors, welcome on board! We hope you enjoy and will stay in touch. Best wishes from us all.

What started as a dream has finally turned into reality. It has always been our wish at Response Network to have the best for the sponsored girls. For some time it all used to be a dream that our girls could have easy access to computers because most girls learn about the theory of computers in school but do not have access to use a computer at all.

Academic work of Sweden turned this dream into reality by availing Response Network with funds to open up a

Resource Centre for the sponsorship program. We have laptops, educational books and motivational books all under one roof. The resource centre was officially launched by the group of traveler from academic work that visited Response Network in March.

Academic Work representative and Response Network Country Director

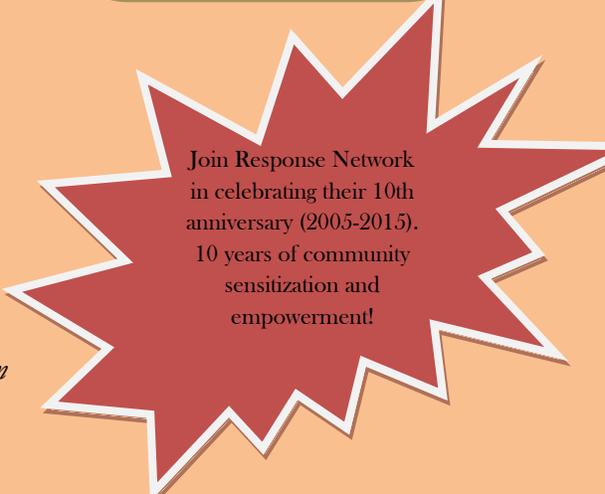

The children are very happy reading in this beautiful new room. The girls now have a great space for group reading, quiet study, and free time

to read privately.

National Grade 7 results are in!

In December during the Christmas holidays, the National Grade 7 results came in! 98% of the students that sat for the exams passed with excellent results. We are very proud of all the students who worked so hard to their potential. The results far exceeded our expectations. The students have graduated to grade 8 in different schools and classes are in progress.

Join Response Network in celebrating their 10th anniversary (2005-2015). 10 years of community sensitization and empowerment!

Grade 12 pupils graduate high school!

We are thrilled to let you know that Grade 12 graduates completed their end of school exams last year and the results are in. Overall, they performed extremely well and had some of the highest results we have seen at this level! This group of young adults all went on to secondary schools in Zambia, support from sponsors. Thank you so much to all these sponsors who have enabled these pupils to complete their schooling.

Priscilla Kalomo, one of the graduates
These children live in the local suburbs with no running water and generally no electricity. They have proved that they can work hard and do well in their studies.

Youth day 2015

In Zambia youth day is commemorated every year across the country on 12th March. This year's youth day celebrations were held under the theme "Building a stable and sustainable future." Response Network was among the various schools, universities,

colleges and some political parties and institutions that participated in the youth day celebrations in Livingstone which was graced by the Minister of Agriculture and Livestock Honorable Given Lubinda who happens to be Response Network organization patron.

Honorable Given Lubinda

The youth from Response Network joined the team in Livingstone in a march past from the town centre up to villa ground. The match past was characterized with chanting and dances from the youths as each group raised high their banners and slogans. After the official events, RN youth met for lunch as this provided an opportunity for them to catch up on what happening in their various schools.
